- 7/24/365 Emergency Service

1kVA to 1MW UPS Solutions

- Sales
- Service
- Rentals
- Refurbishment

www.ePowerNetwork.com

Establishing a strong maintenance and emergency program is vital for critical environments.

Generator and Switchgear

Extended back up power is critical in the event of a utility outage or maintenance project. Our generator offerings include design assistance, installation, testing and fueling services. If you need temporary power, we offer rental generators from 50kW to 1MW for planned or un-scheduled events.

- CAT
- Kohler
- ASCO
- Cummins
- Generac
- Zenith

UPS and Distribution

As a distributor for multiple brands, we offer efficient and scalable UPS architectures. We offer new and refurbished systems based on your budget and application. For quick deployment, we offer rentals systems with 7/24 support and delivery.

- Toshiba UPS
- Emerson UPS
- Eaton UPS
- APC-MGE UPS
- Power, C&D, Deka Battery
- Pentadyne Flywheel

Monitoring Solutions

Monitoring is vital to ensure your power and environmental systems are online and performing at all times. Our monitoring systems can pick up dry contacts or SNMP applications for UPS, Batteries, Generators, Distribution, HVAC units and water detection.

Installation Services

From the initial design and planning to the actual installation and commissioning, we have the experienced to successfully support your next project. These added value services include:

- Design
- Planning
- Project Management
- Logistics
- Rigging
- Warehousing
- Installation
- Start Up
- Site Acceptance Testing

MAINTENANCE PLANS

Our service plans are designed with your budget and demands in mind.

• ESSENTIAL PLAN

For tight budget and time of service needs, this plan offers:

- 8x5 Inspections
- 24x7 Technical Support

• EFFICIENT PLAN

Ideal for companies looking to reduce cost yet maintain emergency service and labor. Includes:

- 7x24 Inspections
